WEEKLY MORBIDITY REPORT
EXPLANATORY COMMENT

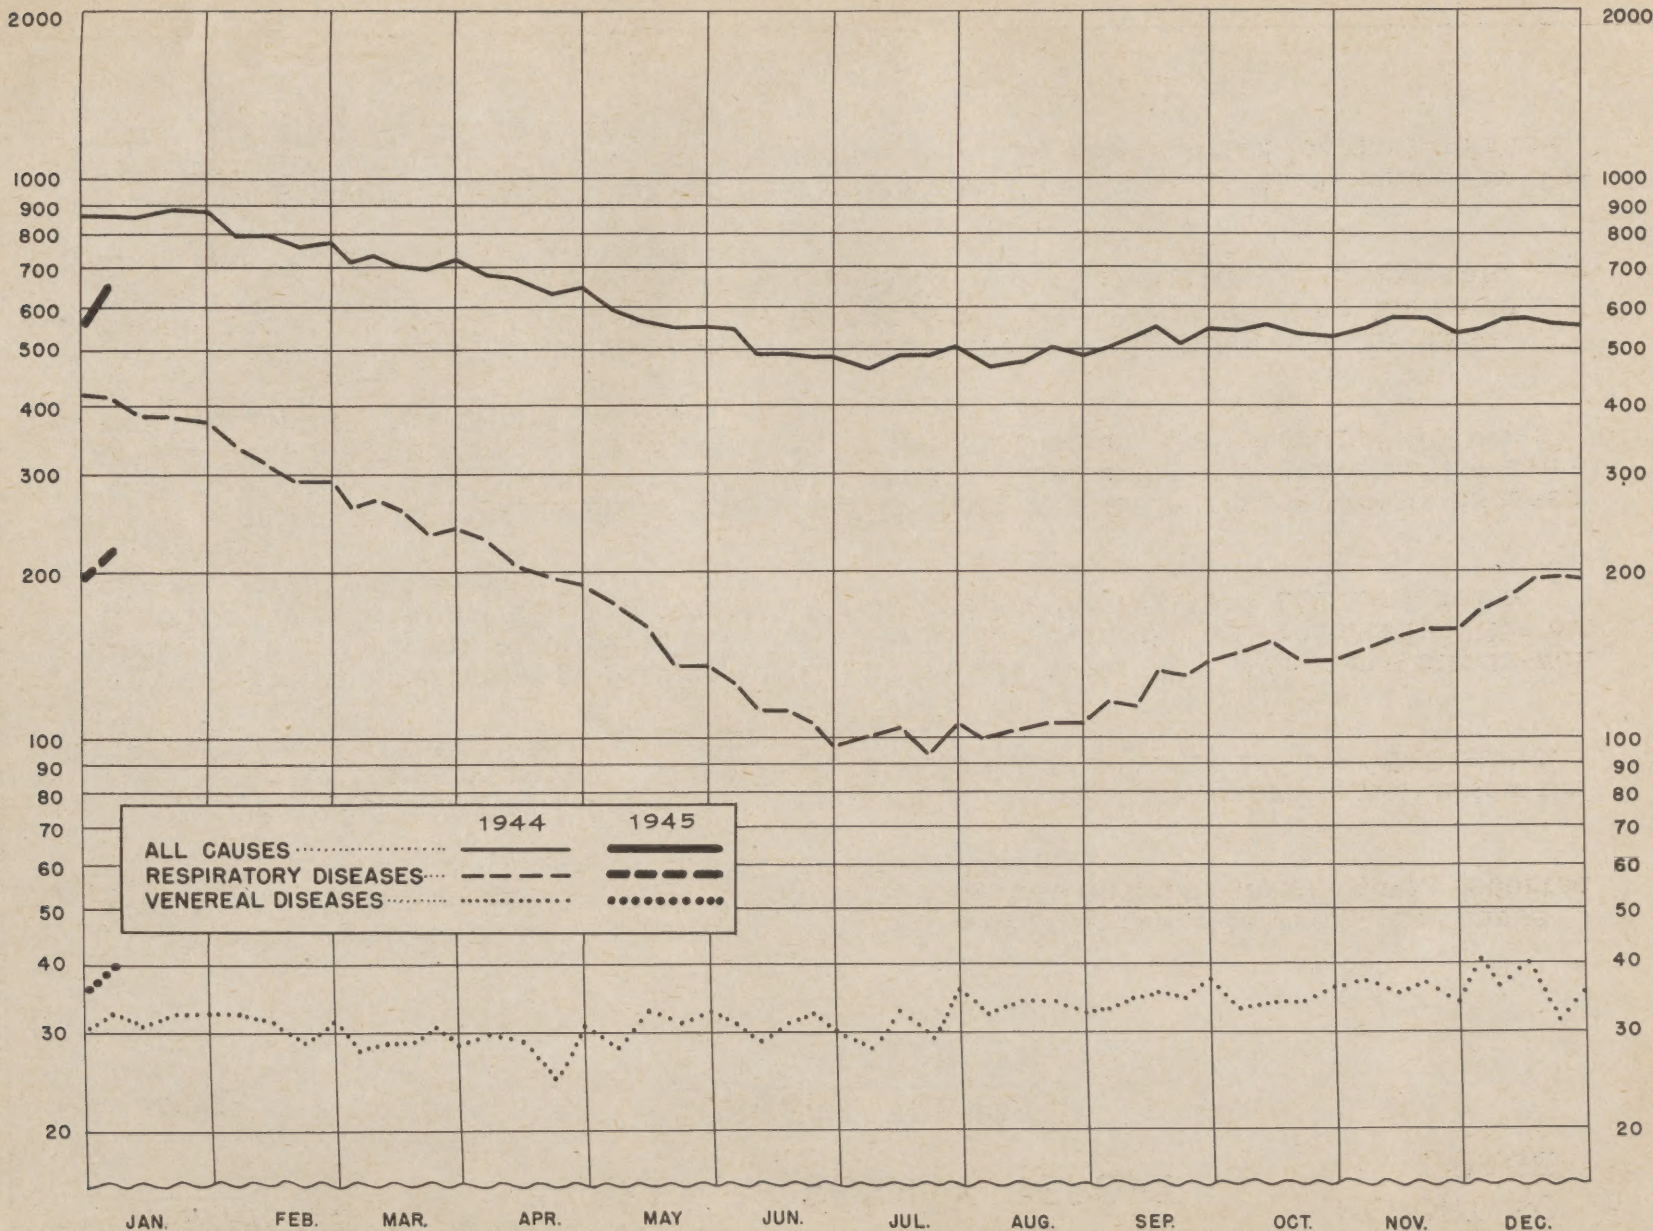

This report presents each week the annual admission rates per 1000 average strength for certain communicable diseases, venereal diseases, and all causes combined (diseases, injuries and poisonings). Source material is the weekly communicable disease reports submitted to BuMed by all shore stations within the continental limits of the United States.

Admission rates are calculated on an annual basis to facilitate comparison with corresponding annual, quarterly or monthly figures. Such annual rates of admission indicate the number of admissions per 1000 average strength which would occur over a year's time if the current week's experience continued for a year. They are obtained as follows:

$$\frac{\text{Number of Admissions During the Week} \times 52}{\text{Average Strength for the Week}} \times 1000$$

In order to make this report promptly available the figures contained herein are presented, in general, as reported. The symbol # indicates that current data are not available. In such cases, the most recent data are utilized.

Shore stations with an average strength of 500 or more are listed individually; stations under 500 strength are grouped.

*INCLUDE: CATARRHAL FEVER, ACUTE; INFLUENZA;
PNEUMONIA-BRONCHO, LOBAR & ATYPICAL;
TONSILLITIS, ACUTE & PHARYNGITIS, ACUTE

CURRENT TRENDS

Week Ending 6 Jan 1945

The admission rate for All Causes showed a decided rise this week. The curve stands well below the 1944 curve for the same period. The highest rate (980) was reported for the 9th District, the lowest rate (439) for the 7th District.

The respiratory disease rate rose slightly this week. The curve is well below the 1944 curve for the same period. The highest rate (474) was reported for the 9th District, the lowest rate (77) was reported for the 7th District.

The venereal disease rate continued to rise this week. The 1945 curve stands well above the curve for the same period of 1944. The highest rate (60) was reported for the 8th District, the lowest rate (31) was reported for the 3rd and 9th Districts and the Potomac and Severn River Commands.

Influenza and Catarrhal Fever, Acute. A sharp rise in the rate for these diseases was recorded this week. The curve for 1945 stands well below the 1944 curve for the same period. The highest rate (308) was reported for the 9th District, the lowest rate (51) was reported for the 7th District.

Pneumonia--Broncho and Lobar. The rate shows a slight increase for these diseases this week. The rate 4 compares favorably with the 1944 rate 6.7 for the same period. The highest rate (7) was reported for the 5th and 9th Districts, the lowest rate (0.99) was reported for the 12th District.

Pneumonia, Atypical. Though the rate rose this week to 3, it stands below the 1944 rate 4.3 for the corresponding week. The highest rate (10) was reported for the 11th District. The 4th District reported no cases.

CURRENT TRENDS Contd.

Tonsillitis and Pharyngitis, Acute. For the past seven weeks there has been a steady increase in these diseases. The rate 66 stands well above the rate 33 for the corresponding week of 1944. The highest rate (157) was reported for the 9th District, the lowest rate (21) was reported for the 7th District.

Rheumatic Fever. The rate for these diseases has stood at 2 for five consecutive weeks. The highest rate (15) was reported for the 13th District. The 6th and 7th Districts and the Potomac and Severn River Commands reported no cases.

Scarlet Fever. The curve for scarlet fever continues upward this week. The rate 14 stands well below the rate 21 for the same period of 1944. The highest rate (38) was reported for the 13th District. The 7th District reported no cases.

Cerebrospinal Fever, Meningococcic. The rate for this disease declined this week. Cases were reported for the 7th and 9th Districts only.

Malaria. After a slight rise last week the rate dropped to 3. This rate compares favorably with the rate 4.8 for the same period of 1944. The 1st District reports the highest rate (12). The 4th District reported no cases.

Measles. The curve for this disease rose this week, though it stands well below the 1944 curve for the corresponding period. The highest rate (20) was reported for the 11th District, the lowest rate (1) was reported for the 4th District and the Potomac and Severn River Commands.
